

Inner City Partnerships

A partnership is developing an *intentional relationship* with *churches and/or organizations* focus on reaching their local communities for Christ. Together we will *share* God given *talents and resources* to help *encourage, enable* and *equip* our churches for *fruitful* ministry.

Intentional: Partnerships enter a mutual covenant with expectations and outcomes clearly stated.

Relationships: We want to know and grow together, with the pastor(s), leaders and congregation.

Churches: We seek already established churches with similar foundational beliefs that could, if assisted well, make a meaningful impact on their neighborhood.

Share: The relationship is mutual, and beneficial to both church bodies.

Talents and Resources: Starting with prayer, and including volunteer effort and, if needed, material assistance.

Encourage: “You are not alone...”

Enable: “How can we be “wind beneath your wings?”

Equip: Through training, volunteers and other resources.

Fruitful: Pursuing clear, prayerfully defined, God given goals....together.
